THE POWER OF ONE

Consider becoming a partner with your family chiropractor to further necessary research that results in better health care outcomes. Make an investment in your care today by supporting the Canadian Chiropractic Research Foundation and ensure a legacy of chiropractic research in Canada. One by one, we can make a difference.

LEARN Ask your chiropractor about the research taking place in British Columbia and the rest of the country.

SUPPORT Make an investment in care for you, your family and the community by contributing to groundbreaking health research.

SHARE Tell your family, friends and colleagues about the important work of the Canadian Chiropractic Research Foundation.

Research opens the door to better health for all Canadians. Show your support today.
